

TECHNICAL DATA SHEET

NASA Engine Degreaser

SECTION 1: Product Description & Advantages

1.1 Product Description

NASA Engine Degreaser is a highly concentrated water-based engine degreaser that is specially formulated to quickly cut and remove grease, oil, and dirt on all types of engine equipment.

1.2 Advantages

1. Quickly dissolves grease, oil and dirt.
2. Cleans iron, steel, aluminum, magnesium, and copper.
3. Not harmful to metal, rubber, plastic or concrete.
4. Rinses off easily with water.

1.3 Typical Applications

1. Cleaning and degreasing automobile engines.
2. Industrial equipment.
3. Farm equipment.
4. Lawn mowers.
5. Tools.

1.4 Direction for use

Warm up engine for easier cleaning and turn it off. Shake the can thoroughly before use. Apply an even coat of engine degreaser on the surface. Allow on surface for 10 minutes depending upon the amount of grease buildup. Clean the all greasy surface with brush and rinse with a mild stream of water. Then let the engine dry.

SECTION 2: Typical Data

| Property | Result |
|---------------------------|--------------------------|
| Chemical Composition | Alkalinity Base Chemical |
| Physical State | Liquid |
| Appearance | Blue Color |
| Odor | Surfactants |
| Specific gravity at 85 °F | 1.020 |
| Solubility in Water | 100% |
| pH | ≥9 |
